

PATROL BIKE & E-PATROL

Fast, agile and extremely durable.

SANTOS

Built for Professionals

An icon on the streets for over 20 years

The ultra-strong Santos Patrol Bike is a fast and efficient patrol bicycle. Low maintenance and extremely durable.

Every day, thousands of Santos Patrol Bikes are used by police, ambulance services, the Red Cross, lifeguards and forestry services. As a result, it has become a familiar presence in the streets of the Netherlands, Belgium and Sweden.

WHY SANTOS BIKES IS YOUR PARTNER

**20 YEARS OF
EXPERIENCE**

**MARKET LEADER
IN THE BENELUX**

**BUILT AS A PROFESSIONAL TOOL,
NOT A CONSUMER PRODUCT**

**MAINTENANCE
& TRAINING**

SANTOS PATROL BIKE.

Ready for every deployment.

The Santos Patrol Bike is built for rough, intensive, daily use and has proven itself as an extremely reliable partner on the street. Designed to withstand heavy use and can be used for protection in threatening situations. The modular Santos Patrol Bike frame forms the foundation; everything else can be fully configured,

upgraded and replaced to suit your needs. Choose from different saddles, handlebars and colours. Opt for suspension or rigid, rim or disc brakes. The possibilities are extensive. The result is a vehicle fully dedicated to the rider: an extension that can be used for surveillance, transport and support in a wide range of situations.

SANTOS E-PATROL.

Fast on site.

The Santos E-Patrol is developed for professionals who need to operate quickly and effectively in public spaces. Whether it's enforcement, supervision or emergency response, the E-Patrol enables rapid deployment in busy city centres as well as in more remote areas.

This e-bike combines the most powerful Bosch mid-drive motor with the proven quality of the Patrol Bike. Built for intensive daily use: strong, low-maintenance and reliable. With excellent handling that ensures comfort and control, even during long shifts in demanding environments. Smooth to ride and powerful against the wind.

Both the Patrol Bike and the E-Patrol feature:

REFERENCES.

"Our bike team supports intervention operations, but you also often see them during events in the city. They are fast and agile, moving smoothly through urban traffic. They are also more approachable. With their Patrol Bikes, they can reach locations that are difficult to access for patrol cars. That's what makes our bike team stand out."

Police Antwerp

"Since 2018, we have had four Santos bikes, allowing us to deploy two ambulance bike teams. Especially during large events, such as the Leiden Relief celebrations, these teams prove their value. The first time, we received 49 calls, of which 40 were handled by the bikers. Thanks to them, patients could often be treated on site without the need for an ambulance. The bikers reach patients faster and more safely, while ambulances remain available for critical situations. A huge added value!"

Emergency Dispatch Center –
RAV Hollands Midden

"Santos Bikes, an extremely strong partner on the streets."

Municipal Enforcement The Hague

"The advantages of patrolling on a Patrol Bike: approachable, visible, recognisable and agile. You can reach locations that other patrol vehicles cannot access."

National Police Netherlands

Foto: FNZ Photographie

"A police officer who is ready for duty deserves a Patrol Bike that is ready for duty, in all conditions. That is exactly why we chose to work with Santos Bikes."

Police Brussels

TRAINING.

Santos Patrol Bikes are suitable for a wide range of manoeuvres and applications. The Patrol Bike is the starting point for effective use in practice. Various proven training programmes are available and can also be delivered on location. Santos facilitates this and is happy to help define the right approach.

Attending a training provides valuable insight into the capabilities and real-world use. Please feel free to contact us for more information.

PROVEN IN PRACTICE.

The organisations and enforcement teams below, across more than 50 cities and municipalities, rely on Santos Patrol Bikes.

ALWAYS READY.

Santos delivers mobility. That means we provide not only the Patrol Bike, but also service and maintenance. With a minimum of (preventive) maintenance, your organisation benefits from a vehicle that is always ready for deployment. Equipment in peak condition.

Santos Maintenance

The Santos Patrol Bike is built for intensive daily use: low-maintenance and extremely durable. For most professional customers, Santos provides preventive maintenance and on-site repairs. This prevents downtime, extends lifespan and reduces operational burden.

Cost vs. lifespan

A Santos Patrol Bike is built to last. Preventive maintenance quickly pays for itself. The combination of long lifespan and efficient maintenance results in very low costs — in practice, just a few euros per day.

Low-maintenance drivetrain

The reliable Rohloff hub and Gates belt drive are proven to be highly durable. Dirt and dust have little impact, and cleaning is not required. Oil changes are needed only once a year. Both offer long service life and low rolling resistance, even in harsh conditions.

In your organisation's colours

Choose from over 50 standard frame colours, all RAL colours, and custom striping and logos. The Rohloff hub and SON lighting are also available in 6 colours, fully customizable to your preference.

Available from a single unit

Santos builds all custom Patrol Bikes just in time. Available on demand, from a single unit to several thousand.

Special geometry

The Santos Patrol Bike is safe, fast and agile. The low step-over height of the frame provides excellent freedom of movement. When adopting a stable position, the rider can bend the knees effectively and, if necessary, easily let the bike fall aside.

Proven durability

In practice, the Santos Patrol Bike has proven to offer an exceptionally long lifespan. A vehicle - Built for Professionals.

Future-proof

Thanks to its modular design, the Santos Patrol Bike can easily be optimized in the future. New developments can be integrated, while parts remain available even after many years.

20 years market leader

With decades of experience, a broad customer base and bikes developed as professional tools rather than consumer products, we are the market leader in bikes for professionals in the Benelux.

BENEFITS FOR YOUR ORGANISATION.

THE RIDER:

- Stays fitter
- Faster on site
- Visible and approachable
- Deployable anywhere
- Increased control and safety

Fast, visible and in control.

THE TEAM LEADER:

- Satisfied employees
- Reduced absenteeism
- High uptime

- We take care of everything

Reliable deployment.

THE PURCHASER:

- Low total cost of ownership (TCO)
- Low maintenance
- More cost-effective than cars
- Available from a single unit
- Long lifespan

More deployment per euro, no surprises

Santos Bikes is an independent Dutch bicycle brand with a passion for cycling, a strong focus on quality and an innovative R&D department. The company was founded in 1997 by cycling enthusiast Robbert Rutgrink and is based in Nieuw-Vennep.

Santos specializes in low-maintenance Patrol Bikes for intensive use. Durability and quality are at the core. Every Santos is custom built to the customer's requirements and assembled by hand.

In 2002, Santos delivered its first Patrol Bike to the Dutch Police.

Experience it yourself

Santos invites you to visit and test our bikes.
